An effective approach for figuring out a price is to ship out a survey to your present customers. If these prospects have already purchased an ebook from you, ask for their opinion when it comes to price. Do that by creating a sales web page for the brand new book, but do not embrace a value on that page. As an alternative, add various hyperlinks to survey questions that ask pointed questions to aid you in assigning a worth to your ebook.

One other technique is to test out prices by creating a number of duplicate gross sales pages with different costs on each page. Be sure your sales copy is precisely the identical on every web page,

and includes your selling-handle sentence. Then work out for each web page the conversion ratio between visitors to your site and gross sales of your book. This may tell you what your optimum price is.
